

MAKE EDI WORK FOR YOU

Edisoft : EDI Solutions For Growing Your Business...

Edisoft solutions serve the following industries:

- Automotive
- Hardlines
- Manufacturing
- Wholesale Distribution
- Grocery
- Healthcare
- Retail
- and more

“Edisoft is a great partner, helping us to successfully grow our major retail business over the past three years. Merchant often exceeds our expectations and Visual ASN adds depth to our management and integration capabilities. Together, they enhance our ability to meet growing compliance requirements, and play a critical role in helping our organization get the job done.”

- **Patrick O’Horo**
Vice President of Operations
and Information Technology

Technology Inc
Sage MAS 200 ERP User

“We started using Edisoft Merchant more than 10 years ago and found it to be an investment that paid for itself quickly. Time savings on data entry is the biggest reward. For a small company like ours with big trading partners, having an EDI solution that is easy to use saves us a great deal of time and expense. Edisoft sure makes me look good!”

- **Kerry Potts**
General Manager
and EDI coordinator

JB Weld
Sage Accpac ERP User

“Edisoft as a whole is constantly evolving and adding features to their products. When we replaced our old accounting system, Edisoft had already been working on an integration piece so the new system worked perfectly. We are constantly taking on new retailers with diverse rules and Edisoft meets those needs every time. If I come across as a fan, that’s because I am, and with every reason to be.”

- **Rory K Gallagher**
IT Manager

Library of More Than 1200 Trading Partner Kits

Each kit is designed to meet the specific requirements of each of your trading partners including Wal-Mart, Home Depot, Staples, Walgreens, Kroger, AutoZone, etc.. Industry leading template technology enables rapid trading partner implementations.

Automate Transaction Exchange

The unattended communications server supports an unlimited number of Value Added Networks (VANs) and secure Internet based communications (AS2, secure FTP, etc.) for sending and receiving your business documents.

Expand Your Business, Reduce Your Costs

Build and strengthen business relationships with large trading partners no matter what your size.

- Eliminate data entry and increase productivity
- Speed up the order processing and billing cycle
- Eliminate ad hoc bridge and on-site programming costs
- Eliminate the cost of outsourcing business-to-business services to a third party

Drag & Drop Warehouse Solution

Merchant Visual ASN – the most advanced integrated ASN solution in the industry. Brings order visibility to your warehouse(s), creating a seamless order fulfillment environment.

Pick Orders

Eliminate traditional paper traffic between the order desk and the warehouse(s), saving both time and resources. Supports a variety of pick methods.

Pack Onscreen

Using our innovative visual packing environment, simply drag and drop items into boxes and onto pallets. Includes a variety of standard features such as scan packing and short shipping. Automate packing using simple yet powerful rules-based packing.

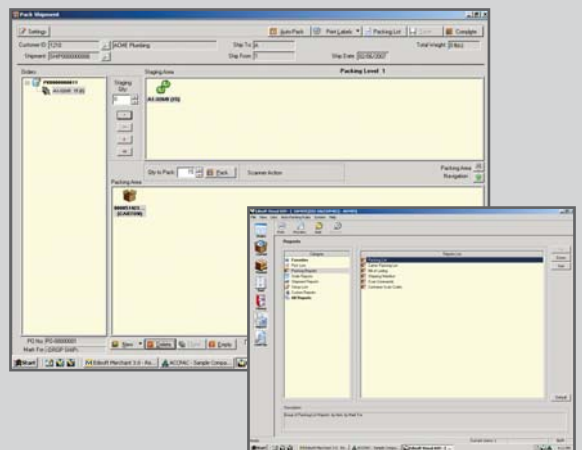

Label Compliance

Generate trading partner compliant shipping labels. Supports all major label printer models.

Ship Confidently

Visual ASN captures complete shipment details for accurate ASN transmittal. Updates your accounting system with actual quantities shipped, ensuring accurate and automated invoicing.

Visual ASN Key Benefits:

- User-friendly graphical interface makes drag & drop packing easy and intuitive
- Single or multiple warehouses supported for increased scalability and flexibility
- Extend order visibility to the warehouse where you create and manage all your shipments
- Unlimited number of users supported for greater efficiency
- Update actual shipped quantities in accounting system for accurate invoicing
- Automate repetitive packing where the same contents are being packaged
- Eliminate shipping and ASN errors
- Integrates with StarShip™ to support rate shopping for small parcel carriers (e.g.; UPS, FedEx, etc.)
- Increase on-time delivery
- Numerous standard reports support a variety of business processes
